Answer the following questions:

1. How you are going to use the Amadeus platforms?

There are two platforms used for selling, the **Basic Pack**, first open your dial-up connection and connect to your Internet Service Provider. In the address box, type in the url for Pro-web : ***http://amadeusproweb.com***. You will have a screen and the application will go through the following stages: *(a)* loading files *(b)* certificate verification *(c)* sign. Once you are in the sign-in stage, system will display to you the sign-in window. Enter your agent sign details. Choose the work areas you want to sign in to and click Sign In. After signing in, the system will bring you to the sign-in information page.The command page is displayed.

The second one is the **Amadeus Selling Platform**, to start Amadeus Vista, start Internet Explorer and enter the url for Vista :***http://amadeusvista.com***. Once you are in the sign-in stage, system will display to you the sign-in window. Enter your agent sign details. Choose the work areas you want to sign in to and click Sign In. Important notes to remember is as follows: *(a)* the last sign code encoded in the system will be carried over the following day, including the type of environment indicated *(b)* make sure you

are in the correct environment before starting to book. After signing in, the system will bring you to the sign-in information page.

That is how you are going to use the Amadeus platforms. Once you are in with the Amadeus platform then you can start your transaction with the passenger.
